

14 STATS Travel10 1992-1997

STATS was introduced in Newcastle from 18 August 1992, replacing MetroTen by 18 September 1992. TravelTen types were the same as for Sydney (except that the imprint on the back was Newcastle specific). The 1992 STATS brochure shows a generic PET ticket, later a specific Newcastle type was introduced before being replaced by the generic Time-based stock. TravelPasses have always been specific to Newcastle, the zones being carried over from the previous type of tickets which they replaced. In the lists that follow those with a large “C” in the triangle are Concession.

Adult= full solid, Concession= part solid

1. Logo at top Stats info on back

- * Adult 1992: red
- * Concession 1992: blue, red, orange
