WA Govt. Tramways (Perth)

The rarity of many items is as yet undetermined as many examples seen may be the only remaining examples. When one considers that a survival rate of 4% is good and the instruction to destroy, very few examples of Australian transport tickets have so far appeared on Ebay. However the Magor collection does contain sufficient examples of the main capital cities tickets from the 1920s to decimal currency in 1966 for a tentative rating to be suggested. This ranges from **R1** (most common) to **R5** (most rare). Where no **R** rating shown in this time period assume **R4-R5**.
